SEO report: Northside Dental

October 2026 · compared with September 2026 and October 2025 · northside-dental.example

Sample data: an invented client

Summary

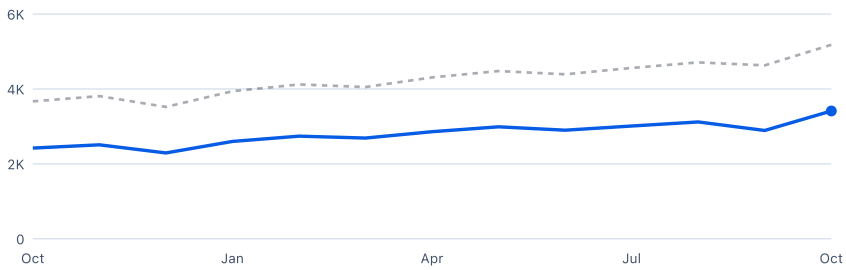

Non-branded clicks rose 18% to 3,412, the best month on record, and organic search brought 47 appointment requests (up from 41). Most of the gain came from the new emergency dentist page, which reached position 4 within three weeks. Next month we focus on the implant pages, where 9 queries sit in positions 5 to 12.

Opportunities

Found in Search Console, with an estimate of extra monthly clicks

OPPORTUNITY	QUERIES	EST. CLICKS/MO
Implant pages in positions 5 to 12	9	+180 to +310
Low CTR on “invisalign cost” (CTR 1.4% at position 8.9)	4	+60 to +95
Kids dentist page losing clicks for 3 months	6	+40 to +70

Estimates use the click-through rate each position usually earns. They are ranges, not promises.

Next steps

Highest priority first

- Expand the dental implants page with costs, recovery time and FAQs
- New title and description for the Invisalign page, testing a price range in the title
- Refresh the kids dentist page before the January peak
